Particolari - Details

Traccia è una collezione minimale, flessibile e allo stesso tempo decorativa. È costituita da un binario elettrificato che può essere installato a incasso, soffitto o sospensione e permette di disegnare linee continue nello spazio seguendo angoli e pareti. Questo profilo accompagna la luce nello spazio e ne permette la personalizzazione in qualsiasi momento, inserendo i diversi accessori correlati: faretti, pendenti, flood lamps, grill light e altri ancora. La particolarità di Traccia sta nella completa personalizzazione della finitura finale. È possibile sia richiedere le finiture proposte in catalogo, che indicare un differente colore RAL che permetta all'illuminazione di mescolarsi all'ambiente e vestirsi degli stessi colori. **È possibile richiedere versioni compatibili con sistemi di domotica.** Per qualsiasi richiesta o differente versione non esitate a contattarci.

Traccia is a minimal, flexible and at the same time decorative collection. It consists of an electrified track that can be installed recessed, ceiling or suspended and allows drawing continuous lines in the space following corners and walls. This profile accompanies the light in the space and allows its customization at any time, inserting the different related accessories: spotlights, pendants, flood lamps, grill light and others.

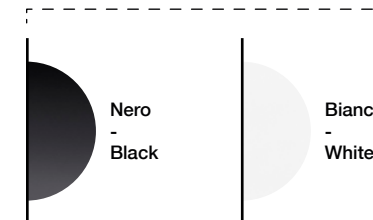

The peculiarity of Traccia lies in the complete customization of the final finish. It is possible either to request the finishes proposed in the catalog, or to indicate a different RAL color that allows the lighting to blend into the environment and dress in the same colors. **Versions compatible with home automation systems can be requested.**

For any request or different version please contact us.
